

ASSET-CARE II/III

OneAmerica Care Solutions

Single Premium Annuity/Whole Life

ONEAMERICA®

OneAmerica® is the marketing name for the companies of OneAmerica

Commitments

Life is made of commitments, many of which are financial. Like the promise to protect and provide for our family. Adhering to these promises helps show how much we care.

But using retirement assets to pay for unexpected care needs can impact your overall financial strategy. Every dollar spent on care is one less dollar used to generate or supplement your income.

Our commitment to you

Asset-Care® can help you keep your commitment to your financial strategy. As part of the OneAmerica® Care Solutions product suite, it uses the security and guarantees provided by whole life¹ insurance to help protect your retirement income stream if the need for care arises. Both Asset-Care II and III utilize a fixed interest annuity to fund a 20-payment whole life policy with an accelerated death benefit for qualifying long-term care expenses.

By selecting a single-premium funding option, you don't have to worry about paying ongoing premiums to keep your policy funded, since the premiums to fund the life policy are automatically deducted from the annuity. Also, there's no unexpected premium increases sometimes seen with traditional long-term care² insurance.

Asset-Care offers guarantees that traditional LTC insurance simply cannot.

1. In PA, universal life **2.** In OR, convalescent care

Guarantees like...

- Premiums never increase
- Benefits never decrease
- Assets grow at a guaranteed rate
- Death benefits are available if not used for LTC
- The option to have your annuity premium returned

How does Asset-Care work?

Asset-Care II and III both utilize a fixed interest annuity funding a 20-payment whole life policy that allows access to 100 percent of the life policy death benefit to help pay for qualifying LTC expenses. When a need for care arises, you have the option to accelerate your death benefit to help you pay for the care you need. You even have the option to continue benefits if your death benefit is exhausted.

You can use existing nonqualified annuities (Asset-Care II) and qualified money (Asset-Care III) as premium sources to obtain LTC protection. Asset-Care II accepts 1035 exchanges, while Asset-Care III accepts direct transfers and rollovers. You can be confident knowing that the financial commitments you've made won't be affected by a possible need for care.

Product highlights

- Provides a guaranteed amount of LTC benefits
- Pass the life policy death benefit income tax-free to beneficiaries if not used for LTC
- Receive a full return of your single premium (less any prior distributions taken) if you choose to return your policy
- Minimum guaranteed interest rate ensures cash value growth
- The patented³ joint protection option⁴ allows you to cover two lives under one policy
- Benefits for LTC are available to be paid as soon as 60 days after care begins

3. US Patent number 6,584,446

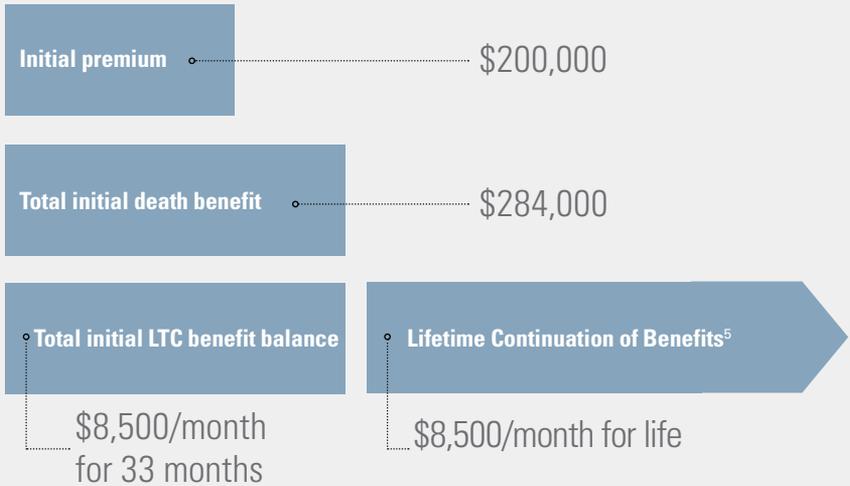

4. Joint coverage is not available in PA

How Asset-Care III could work for you

Jack, 62 and Mary, 60; Married couple, non-smokers, in good health

With a single premium of \$200,000, Jack and Mary are guaranteed \$284,000 as a death benefit, 100 percent of which can also be used for qualifying long-term care expenses.

Each person could receive up to \$8,500 per month for life to help pay for qualifying LTC expenses. This monthly benefit is available to both insureds on the policy, even if care is needed at the same time. If neither utilize their LTC benefits, the entire death benefit would be payable to the beneficiary listed on their policy. While Jack and Mary chose the lifetime continuation in this example, other options are available.

End of Year 20

Death benefit: \$252,000

LTC Benefit Limit: \$7,500/month for 33 months, then

Continuation of Benefits: \$8,500/month for life

Note: Benefit periods listed are shared if there are two insureds. The annual premium stated above includes both the life policy and the Continuation of Benefits rider.

5. Continuation of Benefits begins once the benefits of the base policy are exhausted.

Your steps to get the care to meet your needs

Asset-Care is medically underwritten so you must be in average or better health to qualify. Most applicants can qualify by participating in a brief telephone interview to determine eligibility and next steps. Ask your trusted financial professional for a personalized illustration and Outline of Coverage to see how Asset-Care might work for your specific situation.

Benefit triggers

Benefit payments are triggered in one of two ways:

You cannot perform at least two of six Activities of Daily Living (ADLs), which include bathing, maintaining continence, dressing yourself, eating/feeding yourself, toileting (including getting on and off a toilet) and transferring (like from a bed to a chair).

You require care as a result of a severe cognitive impairment (such as Alzheimer's disease).

Payout options

After you've satisfied the waiting period, your policy can begin paying for qualifying long-term care expenses by accelerating your death benefit at the rate chosen at the time of purchase.

- 2% for 50 months
- 3% for 33 months
- 4% for 25 months

Your death benefit can be accelerated to help pay for other benefits like:

- **Bed reservations** can "hold your spot" in a nursing or assisted living facility if you require more specialized care in a hospital for a period of time.
- **Caregiver training** helps pay for training of an unpaid informal caregiver.

- **Supportive equipment**, includes fees, labor and related costs for the purchase or rental of equipment like grab bars, home ramps and stair lifts.
- **Respite care** involves short term or temporary care to relieve a primary caregiver if they need to travel or simply need a break.

Asset-Care provides more than LTC protection

A lifetime benefit option at premiums guaranteed to never increase.

The ability to take policy loans.

Your assigned Care Solutions Claims Concierge will help you review your policy and support you throughout the claims process.

Looking to the future

Americans are living longer than ever with average life expectancy nearing 80 years in 2015.⁶ Asset-Care provides options to help extend and maximize your protection for as long as you need it.

Long-Term Care Continuation of Benefits Rider (COB)

Long-term care needs are unpredictable, so we offer a Long-Term Care Continuation of Benefits Rider to ensure you and your family remain covered after your base policy duration is met.

Some diagnoses can require many years of care. OneAmerica Care Solutions is the only product to offer protection for the extent of a lifelong condition like Alzheimer's or dementia, instead of for just a few years.

Base Policy Inflation Protection Rider (IPR)

This option can help protect against the rising costs of long term care expenses due to inflation. This option guarantees both the base policy long-term care benefit balance and maximum monthly benefit amount will increase each year. As costs increase, so does your monthly benefit amount.

Both COB and IPR protection options can be paid for with either a single premium, and the COB can even be paid with continuous premiums for your lifetime. Premiums are guaranteed to never increase, even on a joint policy if the first insured dies. Availability may vary by state.

Let us prove our commitment to helping you craft a sound financial strategy. Experience for yourself what it means to be our customer.
